

**IT Focus Magazine:**

**NSCU protects its 24/7 access**

*"It's not just about having the infrastructure, but also having the people and process in place," Offley adds. "Look at the recent Slammer worm that brought down a number of the large financial institutions. All our customers didn't have to worry about that because we have a team who is focused on intrusion detection. It's a full-time job to keep up with these threats that accompany this environment. We employ a whole team to do that. It doesn't make sense for a company to go out and get their own dedicated team when they can buy it from us on a utility basis. We can provide at a lower cost a more secure environment than Fusepoint clients can."*

- CEO Robert Offley discusses the advantages Fusepoint delivers to North Shore Credit Union in April's IT Focus Magazine.
